PREFACE

So far as can be ascertained, this is the forty-eighth edition of the Statutes of King's College, Columbia College, and Columbia University, which comprise a consecutive series covering a period of 205 years. The first Statutes were adopted by the Governors of the College of the Province of New York in the City of New York in America on June 3, 1755, and they are entered in full on the minutes of that date. These Statutes were revised in 1763. Subsequent editions were published in 1785, 1788, 1811, 1816, 1821, 1827, 1830, 1836, 1843, 1848, 1851, 1853, 1856, 1857, 1859, 1860, 1865, 1866, 1870, 1874, 1878, 1880, 1882, 1884, 1885, and 1887.

In 1890 an exhaustive study was made of the then existing Statutes and of all previous legislation of the Trustees as far back as 1820, with a view to the codification of the Statutes, resolutions, and administrative practice, and for the purpose of establishing the practice of embodying in the Statutes and Bylaws all resolutions of continuous operation. A complete revision of the Statutes had become necessary at this time owing to the fact that the College had grown into a university and had thereby become a far more complex organization, calling for definitions and delimitations of power as to offices, schools, and departments. As the result of this study, a revised edition of the Statutes was published in 1892, and at the same time much obsolete legislation was repealed.

Since 1890 the Statutes have been printed with amendments in 1891, 1892, 1894, 1896, 1897, 1899, 1900, 1902, 1905, 1908, 1909, 1911, 1916, 1922, 1926, 1930, 1938, 1947, 1952, and 1956, and, as contained in the present edition, they constitute the organic administrative law of the University as it now exists.

PART ONE—CHARTERS

(in brief)

CHARTERS

On October 31, 1754, in the twenty-eighth year of the reign of George II, a royal charter was granted by Letters Patent to the Governors of the College of the Province of New York, in the City of New York, in America, creating them a “Body Corporate to erect and maintain a college to be known as King’s College for the Instruction and Education of Youth in the Learned Languages and Liberal Arts and Sciences”; with power to elect their successors, to hold property, to appoint a president, fellows, professors, and tutors, and to confer degrees.

This charter remained in force until May 1, 1784, when the Legislature, at its first session after the adoption of the Constitution of the State of New York, passed an act entitled “An Act for granting certain privileges to the college heretofore called King’s College, for altering the name and charter thereof, and erecting a university within this state.”

By the terms of this act the franchises and property of the Governors of King’s College were vested in a corporation styled the Regents of the University of the State of New York, who were thereby empowered to appoint a president and professors and to make ordinances for the government of King’s College, the name of which was changed to Columbia College, and of such other colleges as they should found, composing the University.

This act was repealed by “An Act to institute an university within this state and for other purposes therein mentioned,” which was passed April 13, 1787, largely through the efforts of Alexander Hamilton, then a member of the Legislature, and a regent of the University. By the terms of the repealing act, the original charter granted to the Governors of King’s College was amended, ratified, and confirmed, and the franchises and property formerly enjoyed by the Governors of King’s College were vested in the Trustees of Columbia College in the City of New York, who were named in the act and declared and constituted Trustees of Columbia College, in perpetual succession, according to the true intent and meaning of said charter.

On March 23, 1810, the original charter was further amended by the following act:

An Act Relative to Columbia College
in the City of New York
[Laws of 1810—Chapter 85]

WHEREAS the Trustees of Columbia College in the City of New York have represented, that sundry impediments to their trust, and to the interest of literature in the college, are found by experience from certain restrictions and defects in their charter, and have prayed relief, and that their charter, when amended, may be comprised in one act: Therefore,

If the indirect election method is chosen, then the student member of the University Senate shall be elected by the elected student governing body of the Faculty from which the student member of the University Senate is being chosen. Such choice shall be exercised only by a referendum of the students within such Faculty and shall stand unless and until reversed by a succeeding referendum. If there is no elected student governing body of the Faculty which is authorized to hold indirect elections, and if either a seat assigned to a student member has remained vacant for six months or longer, or elections have failed to fill such a seat, then a member may be elected from one or more departments within that Faculty in rotation, as may be prescribed by the body designated of the University Senate, to administer University Senate elections.

g. *Time of election and term of office*

There shall be two regular election periods each year, one in the spring and one in the fall. The regular term of office for each member shall be as follows:

3. For each appointed member, the term of office shall commence immediately upon appointment and shall expire fourteen days before the day of the second Commencement next following his or her appointment.

It shall be the responsibility of each member to advise the commission supervising elections of members to the University Senate, as early as possible, if he or she will be unable to serve his or her full term. When such commission is so advised, provision will be made to vote, at the next election, for a member to fill the anticipated vacancy. The term of such member shall be the same as that of all other members elected in the same election period, except that if the seat is occupied at the time of election, the term shall commence upon the effective date of resignation of the retiring member. Except as provided in subsection (f), any vacancy occurring between election periods shall be filled in the same manner in which the original member was chosen, and the term of office for each member so elected shall commence immediately upon election and shall expire fourteen days before the day of the second Commencement next following the election. The Executive Committee of the University Senate may designate a date for the expiration of terms and beginnings of new terms different from the date set herein, if such a redesignation is necessary to allow for an orderly transition of the work of the University Senate from one session to the next. No person shall be disqualified from election because he or she will be a member of the category from which he or she is elected for less than two years. However, his or her membership shall terminate when he or she is no longer a member of the category from which he or she was elected.

h. *Recall*

Every elected member shall be subject to recall. Upon petition signed by one-fourth of the number of members of the category from which the member was elected, a recall election shall be held. A majority of votes cast for recall shall cause the recall of the member and his or her membership shall thereupon become vacant.

The provisions of subsection (f) shall also apply to recall elections.

- a. to report to the Trustees its opinion as to any exercise of power proposed by a Faculty under Section 35;

- l. A postdoctoral residency fellow is an officer holding the doctor of medicine, dental medicine, or dental surgery degree, who is appointed for a term not to exceed twelve months, which shall be renewable, for part-time service for the primary purpose of obtaining additional clinical training at an affiliated hospital or institute. This title may not be held for longer than the duration of the training program in which the fellow is enrolled.
 - m. A senior staff associate is an officer holding a bachelor's or higher degree, who has had at least eight years of professional experience in his or her field, and who is appointed for a term not to exceed twelve months, which shall be renewable, for full-time or part-time service for the primary purpose of cooperating in research or conducting equivalent professional activity.
 - n. A staff associate is an officer holding a bachelor's or higher degree, who has had at least four years of professional experience in his or her field, and who is appointed for a term not to exceed twelve months, which shall be renewable, for full-time or part-time service, for the primary purpose of cooperating in research or conducting equivalent professional activity.
 - o. A graduate research assistant is a full-time candidate for a graduate degree at Columbia University, who is engaged in research that is in direct fulfillment of a requirement for the degree, and who is appointed for a term not to exceed twelve months, which shall be renewable, except that this title may not be held for more than a total of five years.
 - p. A departmental research assistant is ordinarily a full-time candidate for a graduate degree at Columbia University who is appointed annually, for not more than a total of four years, to assist a department or one of its regular members in research.

§63. Conditions of appointment: Officers of instruction

Appointments tendered by the Trustees or the President to any instructional grade shall be designated as full time or part time and shall be for service in the University as a whole, not in a particular subdivision. Full-time service implies a program of teaching, scholarly research, and, in the Faculties of Medicine, of Dental Medicine,

of Nursing, and of Public Health, patient care. The standards of conduct expected of an officer of instruction are exemplified in part in the Statement on Professional Ethics and Faculty Obligations adopted by the University Senate on September 29, 1972.

Except in the Faculties of Medicine, of Dental Medicine, of Nursing, or of Public Health, where appointments are for twelve months of service, any teaching assignment entails a period of residence of two terms totaling not more than nine months (less stated holidays), and including, if required, one week before and after each term. All absences during a period of residence must be excused by the President through administrative procedures established for this purpose.

Each professor and associate professor who holds an appointment without a stated term shall be entitled to a sabbatical leave of absence of one year on half pay or one-half year on full pay after completing twelve terms of full-time teaching, including time in the grade of assistant professor. The period of leave shall be considered as service to the University. In accordance with Section 4 of these Statutes, the President may grant other leaves of absence and may adjust all leaves of absence.

§64. Professor emeritus/emera The title professor emeritus/professor emerita is conferred upon distinguished senior officers of instruction at or after retirement in recognition of length of service and eminence in their fields. It is bestowed at the pleasure of the Trustees on the recommendation of the President when approved by the Trustees.

§65. Emeritus/emera designation may be conferred upon other distinguished full-time or part-time officers of instruction in the grades of adjunct professor, professor at an affiliated hospital or institute, professor at the Columbia University Medical Center, professor of clinical, clinical professor, and professor of professional practice, after nomination by the appropriate dean and department at or after their retirement, in recognition of length of service and eminence in their fields. Emeritus/emera designation is bestowed at the pleasure of the Trustees on the recommendation of the President when approved by the Trustees.

VII

CODE OF ACADEMIC FREEDOM AND TENURE

§70. Academic freedom

- a. Academic freedom implies that all officers of instruction are entitled to freedom in the classroom in discussing their subjects; that they are entitled to freedom in research and in the publication of its results; and that they may not be penalized by the University for expressions of opinion or associations in their private or civic capacity; but they should bear in mind the special obligations arising from their position in the academic community.
- b. *Officers of instruction.* As used in this Chapter, “officer of instruction” means any person whose appointment in the Columbia Corporation is primarily for teaching, whether full time or part time, with or without tenure, whatever his or her title or type of appointment held, and whether or not assigned to membership in any Faculty. Where the provisions of this Chapter apply only to full-time officers of instruction, or only to those with tenure, necessary qualification is made.

§71. Tenure

- a. *Definition.* To protect their academic freedom, officers of instruction are granted term appointments (i.e., for a specified length of time), during the currency of which they cannot be dismissed without cause; or appointments with tenure (i.e., without stated term), in which case they cannot be dismissed without cause, except in extraordinary circumstances in case of Discontinuance of a Unit (Section 74).
- b. *Eligibility and time limit.*
 1. Except as described in Sections 71(b)(2), 71(b)(3), 71(b)(4), 71(c) and 71(g) below, no officer of instruction shall be appointed or reappointed for full-time service for a period longer than eight consecutive years unless granted

tenure. *Ad hoc* committee review for these officers is normally expected to occur no later than the officer's seventh year of service, except with the special permission of any Provost.

2. Except as described in Sections 71(b)(4), 71(c) and 71(g) below, no officer of instruction in the Faculties of Dental Medicine, Medicine, Nursing, and Public Health with substantial clinical responsibilities in any patient care setting shall be appointed or reappointed for full-time service for a period longer than eleven consecutive years unless granted tenure. *Ad hoc* committee review for these officers is normally expected to occur no later than the officer's tenth year of service, except with the special permission of any Provost. For the purpose of this provision, substantial clinical responsibility is defined as an average clinical commitment of two months per year in each of the first four years of appointment, with the expectation that the officer will continue to perform at least the same average level of clinical responsibilities for the remainder of his or her nontenured service.
3. When the departmental recommendation [of an officer] for promotion to tenure of an officer without substantial clinical responsibilities is not reviewed by an *ad hoc* committee until the officer's eighth year of service and, after receipt of the recommendation of the *ad hoc* committee, the appointment is not approved by the President or the Trustees, the officer shall be offered reappointment for a ninth and terminal year of service and shall not be deemed to have tenure as a consequence of such reappointment.
4. When the departmental recommendation for promotion to tenure of an officer with substantial clinical responsibilities is not reviewed by an *ad hoc* committee until the officer's eleventh year of service and, after receipt of the recommendation of the *ad hoc* committee, the appointment is not approved by the President or the Trustees, the officer shall be offered reappointment for a twelfth and terminal year of service and shall not be deemed to have tenure as a consequence of such reappointment.

-
5. Any officer of instruction with a full-time appointment whose teaching obligation has for any reason been lightened by the appropriate officials will still be considered a full-time officer. Part-time service, discontinuous full-time service, service elsewhere than at Columbia University, one year of full-time service in a nonprofessional rank, and certain leaves of absence (as provided in Section 71f) shall not count in setting the eight-year limit for officers of instruction without substantial clinical responsibilities or the eleven-year limit for officers of instruction with substantial clinical responsibilities. In addition, the President may rule that a year of appointment is not to count for this purpose when an officer without substantial clinical responsibilities who is in the seventh, eighth or ninth year of counted service or an officer with substantial clinical responsibilities who is in the tenth, eleventh or twelfth year of counted service has been denied tenure, the Faculty Affairs Committee of the University Senate has recommended that the officer be given a new review after a grievance hearing under Section 73b, and the Provost or the President has accepted that recommendation. However, part-time service of officers given career appointments under Section 71c shall count toward the limit in the manner there prescribed.
- c. *Part-time career appointments for parents; additional eligibility of service for parents.*
 1. To enable persons who are professionally committed to University service to care for their children, departments may make part-time career appointments of eligible persons to junior ranks leading to tenure. Persons shall be eligible for this status only if they have one or more children under nine years of age at the beginning of the first academic year for which part-time career status is held. They must be primarily responsible for the raising of these children and must plan to spend a very substantial amount of time in that capacity. Eligible persons may be originally appointed to part-time career status or, with the consent of their departments, may change from full-time to part-time career status, or vice versa. Because of

the purpose for which, and the circumstances in which such status is accorded, holders of such appointments are expected not to engage in gainful employment outside the University. Each year of part-time career status shall be counted as one-half year of full-time service in calculating the eight-year limit on appointments without tenure for officers without substantial clinical responsibilities and the eleven-year limit on appointments without tenure for officers with substantial clinical responsibilities.

2. Any professor, associate professor, assistant professor or instructor appointed with stated term who assumes primary responsibility for the care of a child under one year of age may, at the discretion of the President and upon written request to his or her department, be eligible for up to one additional year of full-time service, which will not count in setting the limits on nontenured service set forth in Section 71(b). Eligibility is limited to one year of full-time service for each child, with a maximum of two years. Faculty who have periods of appointment excluded from the eight-year limit on nontenured service by virtue of leaves of absence to care for a child may not have additional periods excluded under this Section 71(c)(2). The additional year or years of nontenured service provided in this Section 71(c)(2) may be taken in addition to the other exceptions to the normal limits on nontenured service provided in Sections 71(b), 71(c)(1) and 71(f).
- d. *Term appointments.*
1. All officers of instruction without tenure shall initially be appointed for one year. Reappointment of full-time officers so appointed with at least one year of residence at Columbia University may be for one, two, or three years. However, at the conclusion of any term appointment, an officer of instruction may with due notice be offered a one-year terminal appointment, even though such appointment will not complete eight years of service in the case of officers without substantial clinical responsibilities or eleven years of service in the case of officers with substantial clinical responsibilities.

-
2. In no case will term appointments of officers without substantial clinical responsibilities continue beyond eight years of full-time continuous service, except as provided above (Section 71b). Any such officer appointed for a ninth or subsequent year of full-time continuous service shall, except as provided above (Section 71b), be deemed to have tenure (i.e., to have an appointment without stated term) regardless of his or her University title, salary or other conditions of employment, and whether or not the appointment has been considered by an *ad hoc* committee.
 3. In no case will term appointments of officers with substantial clinical responsibilities continue beyond eleven years of full-time continuous service, except as provided above (Section 71b). Any such officer appointed for a twelfth or subsequent year of full-time continuous service shall, except as provided above (Section 71b), be deemed to have tenure (i.e., to have an appointment without stated term) regardless of his or her University title, salary, or other conditions of employment, and whether or not the appointment has been considered by an *ad hoc* committee.
- e. *Formal consideration for tenure.*
1. A full-time officer of instruction holding a term appointment may be considered by his or her department for tenure at any time.
 2. If an officer without substantial clinical responsibilities is reappointed and reaches the fourth, fifth, or sixth year of full-time service, the officer of instruction must, if he or she so requests, be considered for tenure during such year of service. Such an officer must be considered for tenure in any case not later than the end of the penultimate (i.e., seventh) year of his or her full-time service, in order that sufficient time may be allowed so that
 - a. if the departmental decision is favorable, budgetary approval may be given and approval by an *ad hoc* committee (where applicable) concluded prior to May 31 of the following (i.e., his or her eighth) year of service; and so that

-
- b. if the decision of the department is unfavorable, the officer can be given clear and unambiguous notice, in writing, of his or her reappointment for an eighth and terminal year of service, not later than May 31 of his or her seventh year of service; and so that
 - c. if the departmental decision is favorable but, in cases where ad hoc committee review has been deferred to the eighth year of service with the special permission of a Provost, the decision of the *ad hoc* committee is unfavorable, or if a tenure appointment is not granted by the President or the Trustees, the officer can be given clear and unambiguous notice, in writing, of the decision and notification of his or her reappointment for a ninth and terminal year of service before the end of his or her eighth year of service. If the department's decision is unfavorable, the officer may ask for a written statement of reasons, in response to which request the chair of the department must state in writing his or her belief as to the reasons for the department's decision.
 3. If an officer with substantial clinical responsibilities is reappointed and reaches the seventh, eighth, or ninth year of full-time service, the officer of instruction must, if he or she so requests, be considered for tenure during such year of service. Such an officer must be considered for tenure in any case not later than the end of the penultimate (i.e., tenth) year of his or her full-time service, in order that sufficient time may be allowed so that
 - a. if the departmental decision is favorable, budgetary approval may be given and approval by an *ad hoc* committee (where applicable) concluded prior to May 31 of the following (i.e., his or her eleventh) year of service; and so that
 - b. if the decision of the department is unfavorable, the officer can be given clear and unambiguous notice, in writing, of his or her reappointment for an eleventh and terminal year of service, not later than May 31 of his or her tenth year of service; and so that

-
- c. if the departmental decision is favorable but, in cases where *ad hoc* committee review has been deferred to the eleventh year of service with the special permission of a Provost, the decision of the *ad hoc* committee is unfavorable, or if a tenure appointment is not granted by the President or the Trustees, the officer can be given clear and unambiguous notice, in writing, of the decision and notification of his or her reappointment for a twelfth and terminal year of service before the end of his or her eleventh year of service. If the department's decision is unfavorable, the officer may ask for a written statement of reasons, in response to which request the chairman of the department must state in writing his or her belief as to the reasons for the department's decision.
- f. *Leaves of absence (term appointments)*. Upon written request, and with the approval of his or her department and the dean or vice president of his or her Faculty, a full-time officer of instruction holding a term appointment of professorial rank may be granted leave of absence or full exemption from teaching duties for a period up to and including one academic year. Except in the case of officers of instruction with one year of full-time service in a nonprofessorial rank, the first year of such leave or exemption from teaching duties will not count as part of the maximum number of years of service allowed for term appointments provided above (Section 71b). Subsequent periods of leave or exemption from teaching duties shall normally count as part of the maximum number of years allowed for term appointments. In cases of medical, maternity, or compulsory military service leave, however, or for reasons of personal hardship, the President, upon written request from the officer of instruction and with the approval of his or her department and the dean or vice president of his or her Faculty, may rule that the leave of absence is not to count for this purpose. Leaves do not constitute a break in continuous service.
- g. *Exceptions*. Subsections (b), (d), and (e) of this Section shall not apply to the following officers of instruction:

-
1. members of the Faculties of Medicine, of Dental Medicine, of Nursing, or of Public Health who hold clinical titles or titles indicating an appointment in an affiliated hospital or institute or at the Columbia University Medical Center;
 2. persons with appointments as senior lecturer in (discipline), lecturer in (discipline), and associate in (discipline);
 3. persons with appointments as clinical professor of law, associate clinical professor of law, and assistant clinical professor of law; and
 4. persons with appointments as professor of professional practice in (department), associate professor of professional practice in (department), and assistant professor of professional practice in (department).

A person who has once held an appointment as a clinical professor of law, associate clinical professor of law, or assistant clinical professor of law may not ordinarily thereafter receive a tenure appointment; a person who has once held an appointment as professor of law, associate professor of law, or assistant professor of law may not ordinarily thereafter receive an appointment as clinical professor of law, associate clinical professor of law, or assistant clinical professor of law.

§72. Appointment, reappointment, resignation, and retirement

- a. *Written appointments.* Terms and conditions of every appointment or reappointment of an officer of instruction will be stated or confirmed in writing by the chair of the department at the time the offer of appointment or reappointment is made. The notification will state whether the appointment or reappointment is for full-time or for part-time service. All written communications by a chair of a department stating the terms and conditions of an offer of appointment or reappointment shall state that the offer of appointment or reappointment is made subject to the approval of the Trustees, the President, or the Secretary, as the case may be, with respect to the pro-

posed appointment or reappointment, and shall be approved in advance of delivery by the dean of the Faculty in which the appointment or reappointment is proposed to be made.

- b. *Notice of renewal.* Every full-time officer of instruction holding a term appointment will, if reappointed, be so informed in writing. Notification of renewal should follow the time schedule outlined in Section 72c below. Notification of the terms and conditions of renewal of a term appointment should be made by March 15, and in no case later than May 1, unless the President has announced delay in formal approval of the University budget for the next academic year. (Note: The provisions of this subparagraph have been suspended by the Trustees until the President notifies the Trustees that administrative budgeting procedures have been developed to ensure that the University budget and appointment procedures shall be completed by March 15 of each year.)
- c. *Notice of nonrenewal.* Written notice to a full-time officer of instruction who holds a term appointment, informing him or her that his or her appointment is not to be renewed, will be given in advance of the expiration of his or her appointment, as follows:
1. not later than March 1 of the first academic year;
 2. not later than December 15 of the second academic year of full-time service, if the appointment expires at the end of that academic year;
 3. at least twelve months before the expiration of an appointment after two or more years of full-time service at Columbia University.

The provisions of this subsection (c) shall not apply to members of the Faculties of Medicine, of Dental Medicine, of Nursing, or of Public Health who hold clinical titles or titles indicating an appointment in an affiliated hospital or institute or at the Columbia University Medical Center, provided, however, that after two or more years of full-time service at Columbia University, any officer of instruction with such a title in those Faculties shall be entitled to at least six months' written notice of nonrenewal of his or her appointment for any reason,

other than the termination or modification of the affiliation between the University and an affiliated institution, or the closing or curtailment of the operations of such institution.

- d. *Notice of resignation.* A full-time officer of instruction who wishes to resign at the end of the academic year should give notice in writing at the earliest possible opportunity, but not later than April 1, or 30 days after receiving notification of the terms of his or her appointment for the coming year, whichever date occurs later. The officer of instruction may properly request a waiver of this requirement of notice, in case of hardship or in a situation in which he or she would otherwise be denied substantial professional advancement or other opportunity.
- e. *Disability.* The University may at any time retire an officer of instruction on clear and convincing medical grounds. The University may require an officer of instruction at the expense of the University to undergo a medical examination by a physician designated by the University in any case in which a question of medical disability arises. If the officer of instruction denies such grounds and claims continued fitness, he or she may appeal to the University Senate Committee on Faculty Affairs, Academic Freedom, and Tenure (“The Faculty Affairs Committee”), which will attempt to resolve the matter. If the officer of instruction is still not satisfied, he or she may ask for a hearing (Section 75). The retirement of a full-time officer of instruction on medical grounds shall be effective as of the date on which the disability is determined to have occurred, and the officer shall be entitled to six months’ salary from such date and in addition thereafter to the benefits to which he or she is entitled under the terms of any disability insurance or similar plan maintained under Section 84 in which he or she is a participant.

§73. Grievance procedures

- a. *General.* Where an officer of instruction has a grievance against his or her department, or against the University administration, he or she should complain in writing to the University Senate Committee on Faculty Affairs, Academic Freedom, and Tenure (“The Faculty Affairs Committee”). The

Faculty Affairs Committee may inquire into the matter and mediate between the officer and the department, or between the officer and the University administration.

- b. *Reappointment and promotion.* If any officer of instruction holding a term appointment (including instructional appointments restricted to graduate students) alleges that discrimination because of race, color, religion, sex, age, or national origin, prejudice or violation of academic freedom significantly contributed to a decision not to reappoint him or her, or not to promote to tenure, or alleges that procedures were defective in reaching a decision not to promote to tenure, or alleges that student opinion as to his or her teaching ability was not effectively sought in reaching a decision not to promote to tenure, he or she may complain in writing to the Faculty Affairs Committee, stating the grounds for the allegation. These are the only grounds on which the Faculty Affairs Committee will recognize a challenge to such a decision. If they are alleged, the Faculty Affairs Committee will inquire into the circumstances and may make recommendations for resolving the dispute. The Faculty Affairs Committee and its duly constituted subcommittees shall have access to information relevant in grievance investigations, pursuant to guidelines for such access as agreed upon between the committee and the Provost. If the matter remains unresolved, and if, but only if, the Faculty Affairs Committee finds substantial grounds for believing that a violation of academic freedom or discrimination because of race, color, religion, sex, age, or national origin has occurred, it may provide for a formal hearing (Section 75). However, in such case the burden of proof shall rest upon the complainant.

§74. Discontinuance of a unit

- a. *General.* The bona fide discontinuance of a unit of instruction on account of demonstrated serious financial exigency is the only circumstance that should make possible the termination, outside the dismissal procedures defined in Section 75, of the appointment of an officer of instruction with tenure. The unit must be large enough to exclude the pos-

sibility that the discontinuance could be aimed at specific individuals. Termination of appointments under this section may not be used to redeploy resources in those cases where attrition over a period of time is a reasonable alternative. The broad issues involved in any discontinuance must have been reviewed by the University Senate. The provisions of this Section are not intended to prevent the University from altering its educational policies by means other than abrogation of appointments; nor are they intended to encourage major redeployment without due consultation. Moreover, any merger, consolidation, or similar reorganization of two or more units of instruction into a single such unit, which continues to provide instruction in the same or equivalent subject areas, shall not constitute a discontinuance of the pre-existing units that could justify the termination of appointments under the provisions of this section.

- b. *Tenured faculty.* If a unit of instruction within the University is discontinued, every holder of a tenure appointment currently assigned to the unit affected should be placed in a suitable position elsewhere in the University. In the extreme case where the administration, after making a bona fide effort to reassign an affected officer of instruction, concludes that the only feasible course of action is to terminate the latter's appointment, it shall give him or her at least twelve months' notice, or one year's severance salary in lieu thereof. Prior to any such decision to terminate, the administration shall notify the Faculty Affairs Committee of the reasons why reassignment is not feasible and the Committee shall be given an opportunity to discuss the matter. When the appointment of an officer of instruction with tenure is terminated because of the discontinuance of his or her unit, for a period of at least five years his or her place shall not be filled by a replacement, unless he or she has first been offered reappointment and a reasonable time in which to accept or decline such reappointment.
- c. *Nontenured faculty.* An officer of instruction holding a term appointment, whose unit of instruction has been discontinued, shall not be terminated with less notice than is prescribed in Section 72c.

§75. Dismissal procedures

- a. *Definition of dismissal.* Termination of an appointment with tenure, or of a term appointment before the end of the specified term, or of an appointment with special conditions (e.g., as visiting, retired, or professor emeritus/emerita) before the end of the specified term, shall be considered a dismissal and shall be effected only in pursuance of the procedure specified below; except that an officer of instruction who is charged with a violation of the Rules of University Conduct, and who chooses to accept jurisdiction of the Hearing Officer, shall thereby lose his or her right to be judged, and shall not be charged, according to the provisions of this Section.
- b. *Grounds for dismissal.* No dismissal shall be effected by the University except for adequate cause. By “adequate cause” is meant the clear manifestation by an academic staff member of his or her professional unfitness for the position. Evidence to demonstrate professional unfitness, under the above standard, may include, but is not limited to, evidence of gross inefficiency, habitual and intentional neglect of duty, or serious personal misconduct.
- c. *Preliminary actions:*
 1. When reason appears to question the fitness of an officer of instruction, the President should discuss the matter with him or her in a personal conference and explore the possibility of a mutually satisfactory settlement.
 2. If a settlement cannot be reached by this means, the matter should be referred to the Faculty Affairs Committee, which will attempt to use its good offices to effect a resolution acceptable to both parties.
 3. Should conciliatory and mediatory efforts fail, the President, if he or she so desires, may initiate formal action against the officer of instruction. Dismissal proceedings should be commenced by a written communication to the officer by the President or his or her representative, stating the particular charges, summarizing the evidence on which the charges are based, and informing the officer of the procedures set forth herein to determine whether he

or she should be removed from his or her position on the stated grounds.

4. The Faculty Affairs Committee shall receive a copy of the communication sent to the officer of instruction by the President or his or her representative.
5. The officer of instruction should acknowledge the President's letter and indicate whether he or she wishes to contest the charges in whole or in part. If he or she wishes to contest the charges, the Faculty Affairs Committee shall arrange for a hearing.
6. If a hearing is to be held, the Faculty Affairs Committee shall promptly inform the officer of instruction of the time and place of the hearing which it shall schedule in consultation with the faculty members who will hear the case.
7. The hearing shall be scheduled for no sooner than fourteen days and no later than twenty-eight days after the issuing of charges, unless compelling circumstances render such a time table manifestly unattainable.

d. *The hearing committee:*

1. The Faculty Affairs Committee shall, as its first order of business every year, choose twenty officers of instruction from among the tenured faculty of the University (excluding those currently serving on the Faculty Affairs Committee) to constitute a panel of potential hearers. Competence and representativeness shall be the primary criteria used in their selection. Members of this hearing panel shall serve for two-year terms.
2. When a case arises, the Faculty Affairs Committee shall select by lot five members of the panel that will serve as the hearing committee for that case. Each party shall have the right to two peremptory challenges; the Faculty Affairs Committee shall select required replacements from the same source and again by lot.

e. *Hearing procedures:*

1. The hearing committee shall have the duty and the power to protect the integrity of the proceedings. It shall elect

its own chair. After consultation with the President and the officer of instruction, it shall exercise its judgment as to whether the hearing shall be public or private, except that the hearing shall not be public without the agreement of the officer involved. If the hearing is to be public, the hearing committee shall determine which media shall be admitted and what limits on attendance shall be set. It may, in the interest of preserving order, close a hitherto public hearing or change its site. At the request of either party or of the hearing committee, a representative of a responsible educational or other association shall be permitted to attend the proceedings as an observer.

2. During the proceedings, the officer of instruction and the representative of the administration shall be permitted the assistance of counsel. The hearing committee may also avail itself of the assistance of counsel.
3. A verbatim record of the hearing shall be taken and shall be accessible to both parties.
4. Insofar as it is possible to do so, the administration shall secure the cooperation of witnesses; it shall make available to the officer of instruction the necessary documents and other evidence within its control.
5. The officer of instruction and the administration shall have the right to confront and cross-examine all witnesses. Where the witness cannot or will not appear, but the hearing committee determines that the interests of justice require the admission of his or her testimony, the committee will identify the witness, disclose his or her statement and if possible provide for interrogatories. Notwithstanding the foregoing sentence, if the hearing committee does not provide for interrogatories with respect to the proffered testimony of such a witness who will not or cannot appear, or if there is no response to any interrogatories directed to such a witness, the evidence of the witness shall not be received or considered by the hearing committee.
6. The hearing committee will not be bound by rules of evidence applicable in a court of law, but may admit any

evidence which in its opinion is of probative value in deciding the issues involved.

7. The burden of proof that adequate cause exists for dismissal rests with the administration and shall be satisfied only by clear and convincing evidence in the record considered as a whole.
 8. The hearing committee shall base its findings of fact and recommendations for the disposition of the case solely on the hearing record.
 9. The hearing committee shall make explicit findings with respect to each of the charges presented.
 10. The hearing committee may recommend dismissal, a penalty short of dismissal, or no penalty, depending upon the substantiation or lack of substantiation of the charges, the presence or absence of extenuating circumstances, and the gravity of the proved offense. If it recommends dismissal, the committee should also state whether the dismissal should be summary,
 11. or with notice, or salary in lieu of notice; and, if the latter, for what period. The committee shall in every case offer reasons for its recommendations.
 12. The hearing committee shall report its findings and recommendations simultaneously to the officer of instruction, to the President of the University, and to the chair of the Faculty Affairs Committee.
- f. *Review procedures:*
1. If the President rejects the report of a majority of the hearing committee, in whole or in part, he or she shall state his or her reasons for doing so, in writing, to the committee and to the officer of instruction and shall provide them with an opportunity to respond before asking the Trustees to review the case. If the officer of instruction rejects the report, he or she shall have the option of appealing directly to the Trustees.
 2. In reviewing the case, at the behest of the President or the officer of instruction, the Trustees shall be guided

by the record of the hearing. They shall, however, provide opportunity for argument, oral or written or both, by the principals or their representatives, if requested and deemed necessary.

3. Should the Trustees sustain the decision of the hearing committee, the proceeding will terminate to that point. Should they reject the decision of the hearing committee, the Trustees shall return the case to that committee with specific objections in writing. The hearing committee shall then reconsider, taking into account the stated objections and receiving new evidence if necessary. The Trustees shall make the final decision only after study of the hearing committee's reconsideration; they shall offer a reasoned opinion for a decision to overrule. The Faculty Affairs Committee shall receive the record at the conclusion of the proceedings.

g. *Suspensions:*

1. Until final decision has been reached, the officer of instruction shall not be suspended from his or her duties, or assigned to other duties, unless immediate harm to himself or herself or others is threatened by continuance of his or her normal service.
2. The decision as to whether immediate harm is threatened shall be made by the President of the University, but not until after he or she has consulted the Faculty Affairs Committee. A suspension can be effected only by the President or his or her duly authorized representative. An interim suspension, as provided in Section 75g(1), while the case is being decided, shall be with pay. A suspension imposed as a penalty short of dismissal, as provided in Section 75e(10), shall be without pay.

VIII

RETIREMENT PROGRAM AND EMPLOYEE BENEFITS

§80. Retirement Subject to the exceptions and limitations under applicable federal and state law in force from time to time, no officer of administration, officer of research, or officer of instruction shall be retired involuntarily from active service in the University on account of his or her age.

§81. Optional retirement Any officer of administration or research may, at his or her own written request to the President or on motion by the Trustees, be retired from active service in the University at any time after he or she attains the age of 65 years or at any time on clear and convincing medical grounds. The University may require an officer of administration or research, at the expense of the University, to undergo a medical examination by a physician designated by the University in any case in which a question of medical disability arises. The dean, director, or chair of each Faculty, institute, center, or department of the University shall bring to the attention of each member of the Faculty, institute, center, or department, of which he or she is dean, director, or chair, who has expressed an interest in or who to the knowledge of such dean, director, or chair has conducted similar research or instruction in the past, any solicitations for contracts or grants to perform research or instruction addressed to the University and forwarded to the Faculty, institute, center, or department or addressed directly to the Faculty, institute, center, or department.
- b. The office administering University projects and grants will examine each existing and proposed agreement for the support of research or instruction to which the University is or would be a party to determine if the terms of the agreement are or would be in conflict with the Regulations, as amended from time to time, and any particular exceptions previously made by the review board.
- c. If the office administering University projects and grants determines that the terms of an agreement do not comply with the Regulations or particular exceptions previously made by the review board, then, at the request of the principal investigator of the proposed project, said office will apply to the review board for a particular exception to the Regulations. The review board will act promptly on any such appeal. If the application or the appeal is approved, the action will be announced to the University community by the review board and written authorization signed by the chair of the review board will be given to said office for acceptance of the agreement.
- d. The office administering University projects and grants shall regularly make available basic information concerning grants and contracts awarded to the University to members of the University community who request or have requested such information, together with a brief abstract of the purpose of

the grant or contract. The principal investigator of each grant or contract awarded to the University shall provide to the office administering University projects and grants a brief abstract of the purpose of each grant or contract awarded to him or her for dissemination to members of the University community who request or have requested information in accordance with the preceding sentence.

- e. The principal investigator of each grant or contract awarded to the University shall forward to the office administering University projects and grants a copy of periodic progress reports of long-term projects, and of the final report required to be filed pursuant to the terms of the project or grant, concurrently with the delivery of such reports to the contractor or granting agency. The office administering University projects and grants shall deposit all such copies of such reports in one or more libraries of the University.
- f. The University administration shall arrange for the communication to members of the University community through the appropriate University Handbooks and by other means their research or instructional obligations and privileges, including the limitations on the use of University facilities for non-University activities contained in Section 5 of these Statutes.
- g. Nothing in this Chapter shall be interpreted to require the University unilaterally to breach any existing agreement.

XLIV

RULES OF UNIVERSITY CONDUCT

§440. Affirmative Statement

The Rules of University Conduct, found in Chapter XLIV of the Statutes of Columbia University, are intended to ensure that all members of our community may engage in our cherished traditions of free expression and open debate. The University, as a forum for the pursuit and attainment of knowledge in every field of human endeavor, has a special role in fostering free inquiry. A principal reason why universities have endured and flourished over centuries is that they provide a place for ideas to be tested, for values to be questioned, and for minds to be changed with as few constraints as possible. Like society at large, but even more so, the University has a vital interest in fostering a climate in which nothing is immune from scrutiny. And Columbia, in particular, has a long tradition of valuing dissent and controversy and in welcoming the clash of opinions onto the campus.

To be true to these principles, the University cannot and will not rule any subject or form of expression out of order on the ground that it is objectionable, offensive, immoral, or untrue. Viewpoints will inevitably conflict, and members of the University community will disagree with and may even take offense at both the opinions expressed by others and the manner in which they are expressed. But the role of the University is not to shield individuals from positions that they find unwelcome. Rather, the University is a place for received wisdom and firmly held views to be tested, and tested again, so that members of the University community can listen, challenge each other, and be challenged in return.

The University recognizes only two kinds of limitations on the right of freedom of expression, and both are to be narrowly construed. First, the University reasonably regulates the time, place, and manner of certain forms of public expression. In keeping with the University's dedication to the principle of uninhibited discourse, these regulations do not turn on the content of any message that might be expressed. Rather, they are necessary not because they would prevent any opin-

ion from being stated or heard, but, to the contrary, because they protect the rights of free speech, free press, and academic freedom. Just as all members of the University community have the right to speak, to study, research, to teach, and to express their own views, so must they allow others in the community to do the same. The right to demonstrate, for example, cannot come at the expense of the right of others to counter-demonstrate, to teach, or to engage in academic pursuits requiring uninterrupted attention. As is true of the larger community in which the University sits, the University must protect the rights of all to engage in their callings and express their own views.

Second, the University may restrict expression that constitutes a genuine threat of harassment, that unjustifiably invades an individual's privacy, or that falsely defames a specific individual. These forms of expression stand apart because they do little if anything to advance the University's truth-seeking function and they impair the ability of individuals at the University to participate in that function. The University has an obligation to assure members of its community that they can continue in their academic pursuits without fear for their personal security or other serious intrusions on their ability to teach and to study.

Because of the University's function as an incubator of ideas and viewpoints, the principle of free expression must be jealously guarded. As President Bollinger has noted, "Our great institutions of higher education bear a special social responsibility for educating people to possess a nimble cast of mind, able to grasp multiple perspectives and the full complexity of a subject. And for centuries, great societies of all types have understood that this kind of intellectual capacity is essential to progress. But never have critical thinking and tolerance been more important for individual well-being and for our collective prosperity." Every member of our community therefore retains the right to demonstrate, to rally, to picket, to circulate petitions and distribute ideas, to partake in debates, to invite outsiders to participate, and to retain the freedom to express opinions on any subject whatsoever, even when such expression invites controversy and sharp scrutiny. Although the University values the civil and courteous exchange of viewpoints, it does not limit discussion because the ideas expressed might be thought offensive, immoral, disrespectful, or even dangerous. We expect that members of our community will engage in public discussions that may confront convention, and free expression

would mean little if it did not include the right to express what others may reject or loathe.

§441. Definitions Terms used in this Chapter shall have the following meanings: (Comment: While gender-neutral language is employed in these Rules whenever possible, “he,” “him,” or “his” occasionally appear. They are used to avoid awkward locutions and are not intended to perpetuate gender stereotypes.)

- a. *University* means Columbia University in the City of New York.
- b. *University facility* means that place where a University function occurs.
- c. *University function* means any charter or statutory operation or activity of the University, including instruction, research, study, administration, habitation, social life, space allocation and control, food supply, and other functions directly related thereto. Specifically included are both functions of fixed-time duration (e.g., classes, examinations, lectures, etc.) and functions of continuing duration (e.g., the operation of libraries, research laboratories, maintenance shops, computers, business offices, etc.). Also included are functions ancillary to directly educational purposes, such as meetings, disciplinary proceedings, and athletic and social events sponsored by any University-approved organization.
- d. *Deans* are persons appointed by the President, and approved by the Trustees, either as dean, acting dean, or director of one of the divisions or schools of the Columbia Corporation, or such staff persons as they may assign to administer disciplinary affairs.
- e. *Delegates*. Delegates are appointed by the President and/or the Rules Administrator. In addition, all Deans and Deans of Students are automatically considered Delegates under these rules. Delegates have authority for the enforcement of these Rules. They shall warn individuals and groups whose actions may violate these Rules and may declare their belief that the demonstration does not conform to the Rules of Conduct. They shall, when facts known to them or brought to their attention warrant, file a complaint with the Rules Administrator against alleged violators.

-
- f. *Day* means a calendar day, regardless of whether the University is in academic session except for purposes of the procedures set forth in Section 448 and 450. Whenever any time limit expires on a nonworking day, it shall be extended to the next working day.
 - g. *Students* are any persons registered in any division of the University, whether for courses or research, and whether or not they are candidates for a degree or certificate. They also include persons who are on leave or suspended or continuing matriculants for any degree or certificate, as well as persons registered during any preceding terms and who have not since that time earned the degree or certificate or withdrawn from the University.
 - h. *Faculty* means officers of instruction appointed to any division, school, or other department of the University, including officers on leave.
 - i. *Staff* means members of the administration, administrative staff, research staff, library staff, or supporting staff, and includes all non-instructional officers.
 - j. *Violation* means the commission of an act proscribed by these Rules. However, inadvertent or accidental behavior shall not be considered to be the substance of a violation.
 - k. *Respondent* means a person against whom a charge for violation of these Rules has been filed.
 - l. *Rules Administrator* means the Rules Administrator appointed under Section 445a.

§442. Jurisdiction The Rules of University Conduct shall apply to all members of the University community: administrators, administrative staff, research staff, library staff, supporting staff, faculty, and students. Also visitors, licensees, and invitees on a University facility shall be subject to the Rules of University Conduct. Violations by such persons may result in the revocation of their invitation or license to be on a University facility and their subsequent ejection. The Rules of University Conduct apply to any demonstration, including a rally or picketing, that takes place on or at a University facility or at any University sponsored activity. Such facilities include,

but are not limited to, all University campuses, research laboratories, maintenance shops, business offices, athletic fields, dormitories, classrooms, and meeting halls. The Rules of University Conduct do not apply to participation in a demonstration, including a rally or picketing, by full-time employees of the University represented by a collective bargaining agent, where the demonstration arises in the course of or is incident to a labor dispute involving the University.

§443. Violations

- a. A person is in violation of these Rules when such person individually or with a group, incident to a demonstration, including a rally or picketing:
 - (1) (simple violation) engages in conduct that places another in danger of bodily harm;
 - (2) (serious violation) causes or clearly attempts to cause physical injury to another person;
 - (3) (simple) uses words that threaten bodily harm in a situation where there is clear and present danger of such bodily harm;
 - (4) (serious) uses words in a situation of clear and present danger that actually incite others to behavior that would violate Sections 443a (2) or (6);
 - (5) (simple) causes minor property damage or loss, or endangers property on a University facility;
 - (6) (serious) misappropriates, damages, or destroys books or scholarly material or any other property belonging to the University, or to another party, when that property is in or on a University facility, and by such action causes or threatens substantial educational, administrative, or financial loss;
 - (7) (simple) interferes over a short period of time with entrance to, exit from, passage within, or use of, a University facility but does not substantially disrupt any University function;
 - (8) (serious) continues for more than a short period of time to physically prevent, or clearly attempt to prevent, passage within, or unimpeded use of, a University facility, and thereby interferes with the normal conduct of a University function;

(9) (serious) enters or remains in a University facility without authorization at a time after the facility has been declared closed by the University; (Comment: The University shall make all reasonable attempts to publicize this declaration to the fullest extent possible.)

(10) (simple) enters a private office without authorization;

(11) (serious) holds or occupies a private office for his own purposes; (Comment: Persons may not enter a private office unless invited and then not substantially in excess of the number designated or invited by the occupant. Anyone so entering must leave on request of a recognized occupant of such office or on request of another authorized person. Passage through reception areas leading to private offices must not be obstructed for more than a short period of time. Clear and unimpeded passageway through lobbies, corridors, and stairways must be maintained at all times. For this purpose, the Delegate may advise demonstrators as to the permissible number of participants in such restricted areas and regulate the location of such participants. Persons may use rooms in which instruction, research, or study normally take place only when such rooms are assigned to them through established University procedures.)

(12) (simple) causes a noise that substantially hinders others in their normal academic activities;

(13) (simple) briefly interrupts a University function;

(14) (serious) disrupts a University function or renders its continuation impossible;

(15) (serious) illicitly uses, or attempts to use, or make threats with a firearm, explosive, dangerous or noxious chemical, or other dangerous instrument or weapon;

(16) (simple) fails to self-identify when requested to do so by a properly identified Delegate;

(17) (serious) prevents a properly identified Delegate from the discharge of his official responsibilities under these Rules, except through a mere refusal to self-identify;

(18) (simple) fails to obey the reasonable orders of a properly

identified Delegate regulating the location of demonstrators or others within the vicinity of a demonstration to assure unimpeded access to or use of a facility or to avoid physical conflict between demonstrators and others; (Comment: This regulation gives the Delegate authority to regulate assemblies. The check against abuse of such authority is provided by the test of reasonableness imposed by the University Judicial Board in such disciplinary proceedings as may result from noncompliance. Should a Delegate in the exercise of discretion fail to disperse an assembly in which some or all of the participants are violating or have violated the Rules, this should in no way be construed as excusing the violators, who remain liable for their acts under these Rules.)

(19) (simple) fails to disperse from an assembly upon order of a properly identified Delegate when such order results from repeated or continuing violations of these Rules by members of the assembly and the Delegate has by verbal directions made reasonable effort to secure compliance before ordering dispersal;

(20) (serious) fails to disperse from an assembly upon order of a properly identified Delegate when such order results from serious violations of these Rules by members of the assembly and the Delegate so states in his order to disperse.

§444. Enforcement

- a. *Summoning a Delegate.* Should any member of the University community believe that participants in an assembly or other demonstration are violating the Rules of University Conduct, he or she should notify the appropriate Delegate(s) by contacting the Rules Administrators and/or The Office of Public Safety. The Delegate(s) shall proceed to the site of the demonstration and gather information for possible transmission to the Rules Administrator. This includes the identities of any participants who the Delegate feels are violating the Rules and the facts surrounding the demonstration.
- b. *Warning and advice.* Properly identified Delegates shall warn those parties whose actions they consider to be in violation of these Rules. However, a member of the University community may be charged with a violation of these Rules even

if no prior warning has been given or perceived. Only the University Judicial Board shall, in either case, be empowered to determine whether the actions of the accused were in violation of these Rules.

- c. *Creating separate areas for demonstrations believed to be in violation of these Rules and for permissible demonstrations/observation.* Delegates believing that an assembly or other demonstration is violating these Rules should, to the extent practicable in their sole judgment, immediately make all reasonable efforts to create separate areas for demonstrators whose actions are believed to violate the Rules and for those wishing to demonstrate permissibly, or to observe, or to report on, cover, photograph, or document the demonstration. There should be a reasonable distance between these areas, with a presumption in favor of allowing unobstructed view and observation, and they should be graphically delineated without creating barriers, to the extent feasible. Failure by a Delegate to create these areas shall not excuse a violation of these Rules.
- d. *Distribution of a flier conveying pertinent information to demonstrators and observers.* Whenever an assembly or other demonstration believed to be in violation of these Rules continues for more than a short period of time, the Delegate shall consider preparing a flier for distribution to persons in the area of demonstration. The flier should repeat any previous warning by a Delegate concerning the violation of these Rules that are believed to be taking place, describe the locations of any areas cordoned off under Section 444c, and identify the locations where full copies of these Rules are available. Failure by the Delegate to prepare and distribute such a flier shall not excuse a violation of these Rules.
- e. *Self-identifying.* A properly identified Delegate may request individuals believed to be violating these Rules to identify themselves. Members of the University community who do not self-identify may be charged with a violation of these Rules.
- f. *Treatment of outsiders.* In accordance with the jurisdiction of these Rules, any visitor, licensee, or invitee who the Delegate determines is violating these Rules, and who does not comply with the Delegate's warning and advice, may be ejected from

a University facility without regard to the procedures set forth herein. Delegates also have a responsibility to protect the rights of lawful demonstrators. Delegates may warn counter-demonstrators or vigilantes whose actions the Delegate may consider to be in violation of these Rules. Members of the University community should not take enforcement of these Rules into their own hands, since such action may result in violations of these Rules.

If the President, upon consultation with a majority of a panel established by the University Senate's Executive Committee, decides that a demonstration poses a clear and present danger to persons, property, or the substantial functioning of any division of the University, he or she shall take all necessary steps to secure the cooperation of external authorities to bring about the end of the disruption. The President shall make public his or her decision to the fullest extent possible as soon as it is feasible. Nothing in the above shall be construed to limit the President's emergency authority to protect persons or property.

§445. Administrative and Judicial Personnel

- a. *Rules Administrator.* The Rules Administrator (or his/her designated Assistant Administrator) shall have primary responsibility for the administration of these Rules. He/she shall maintain and have custody of the records of proceedings under these Rules; shall prepare and serve notices and other documents required under these Rules; shall accept and investigate complaints, file charges, organize informal settlements, and present evidence in support of charges to the hearing panels. The Rules Administrator shall be appointed by the President after consultation with the Executive Committee of the University Senate, and shall serve at the pleasure of the President. The Rules Administrator shall be an individual appointed from the Office of the Executive Vice President for University Life. The Rules Administrator may appoint one or more Assistant Administrators, who may act in his or her stead. Persons otherwise concerned with the disciplinary procedures of a particular school or division may

not be appointed as the Rules Administrator or an Assistant Administrator.

- b. *Delegate.* Delegates may be called upon to enforce these Rules by anyone subject to them, including faculty, students, and staff, or they may proceed to enforce them on their own initiative. A Delegate is obliged, upon the request of another Delegate, to assist that Delegate. The Rules Administrator shall be kept informed of all actions and charges undertaken by a Delegate.
- c. *University Judicial Board.* The University Judicial Board shall hear all charges of violations of these Rules. The Executive Committee of the University Senate shall at its first meeting each year appoint or fill vacancies in a University Judicial Board consisting of five members, one of whom shall be a student, one of whom shall be a faculty member, and one of whom shall be a staff member, as defined in Section 441i. Each of these three groups—students, faculty, and staff—is eligible for the two remaining seats, but none of the groups may occupy both of those seats, and thereby form a majority of the Board. The members shall be chosen after consultation with the three groups. The Executive Committee shall designate the chair of the Board, as well as an alternate chair, and shall also appoint a pool of alternate board members. Appointments to the board shall be for a term of three years, and shall be staggered to ensure continuity. The members of the University Judicial Board shall be persons from within the University, and no person otherwise concerned with disciplinary procedures may be appointed to the Board. Once confirmed by the Executive Committee, members of the University Judicial Board pool will be trained in the Rules of University Conduct and the precedents for adjudications and sanctions.
- d. *Appeals Board.* The Appeals Board shall hear all appeals from decisions or sanctions imposed by the University Judi-

cial Board or, in cases of informal resolution, decisions or sanctions imposed by the Chair of the UJB, or by the Chair's designee. The Appeals Board may overturn, affirm, or revise the decision, and it may overturn, affirm, or lessen the sanction. The Executive Committee of the University Senate shall at its first meeting each year appoint or fill vacancies in an Appeals Board consisting of three members, each of whom is a Dean of School or Division. The Executive Committee shall designate the chair of the board and shall make appointments to the board, which shall ordinarily be for a term of three years, so as to provide for staggered terms to ensure continuity in the board. The members of the Appeals Board shall be persons from within the University. Members of the Board will not be from the school of the respondent.

- e. *Additional judiciary boards or members.* The Executive Committee of the University Senate may appoint additional boards, or persons to a board, should the need arise. The Executive Committee may divide the original University Judicial Board, or the original Appeals Board, as equitably as possible to ensure maximum continuity of experience.

§446. Rights of the respondent In order to provide accessible, prompt, and fair methods of investigation and resolution of incidents of misconduct, the University has developed a process for investigation and adjudication of allegations of misconduct. Throughout this process, the respondent has the following rights:

- To respect, dignity, and sensitivity.
- To appropriate support from the University.
- To privacy to the extent possible consistent with applicable law, University policy, and the respondent's wishes.
- To information about the University's Rules of University Conduct.
- To the presence of an advisor throughout the process.
- To participate or to decline to participate in the investigation or

hearing process. However, a decision to refrain from participating in the process either wholly or in part will not prevent the process from proceeding with the information available.

- To a prompt and thorough investigation of the allegations.
- To adequate time to review documents during and following the investigation.
- To adequate time to prepare for a hearing.
- To introduce evidence into the record and call witnesses on one's own behalf.
- To request access to University documents or camera footage that can be used in one's defense.
- To an opportunity to challenge the Rules Administrator, members of the University Judicial Board, or members of the Appeals Board for a possible conflict of interest.
- To refrain from making self-incriminating statements.
- To appeal the decision made by a hearing panel and any sanctions.
- To notification, in writing, of a report of misconduct, any charge filed, any resolution of the case, any factual findings of the investigation, any explanation of findings of responsibility, and any imposed sanctions, including the outcome of any appeal.
- To understand that information collected in the process may be subpoenaed in criminal or civil proceedings.

Privacy

The University will reveal information about its investigations and adjudication of misconduct only to those who need to know the information in order to carry out their duties and responsibilities. It will inform all University personnel participating in an investigation, proceeding, or hearing that they are expected to maintain the privacy of the process and of the respondent.

Advisor(s)

The respondent may be accompanied to any meeting or hearing related to an incident of misconduct by the advisor(s) of his/her

choice. Advisor(s) may support the respondent and provide advice about the investigation and disciplinary process. During meetings and hearings, the advisor(s) may talk quietly with the respondent or pass notes in a non-disruptive manner. The advisor may not intervene in a meeting or hearing or address the Rules Administrator or hearing panel, including by questioning witnesses or making objections. If a respondent desires to have an attorney serve as his or her advisor, the University will arrange for a volunteer attorney-advisor if the respondent so requests. Advisors may include but are not limited to family members, friends, counselors, therapists, clergy, attorneys, academic advisors, professors, and administrators.

Declining to Participate

A respondent may decline to participate in the investigative or adjudicative process. The University may continue the process without the respondent's participation. In most cases, a refusal to participate in the investigative process will preclude a respondent from participating before the hearing panel.

Time Frame

The University will seek to resolve every report of misconduct within approximately two (2) months of an incident, not counting any appeal. Generally, the time line will be as follows:

- Investigation begins within five (5) business days after an incident.
- Investigation completed within fifteen (15) business days after the investigation begins.
- Hearing (if any) held within fifteen (15) business days after the conclusion of the investigation.
- Notice of a decision for cause to reject a request from the respondent for an open hearing.
- Decision of the hearing panel issued within five (5) business days after the hearing.
- Notice of sanctions issued within five (5) business days after the decision of the hearing panel (or after the respondent accepts responsibility).

-
- Notice of appeal to the Appeals Board filed by the Rules Administrator and/or respondent within five (5) business days after the notice of decision or sanctions.
 - Decision of the Appeals Board within ten (10) business days after notice of appeal received.
 - Notice of appeal to the President filed by the Rules Administrator and/or respondent within five (5) business days after the decision of the appeal.
 - Decision of the President within ten (10) business days after notice of appeal.

Each of these stages is explained in greater detail below. The hearing panel may extend any time frame for good cause, with a written explanation to the Rules Administrator and respondent.

Notice

The Rules Administrator will give the respondent a written explanation of his/her rights and options as soon as possible after an incident is reported. The University will also ensure that the respondent is updated throughout the investigative process, including with timely notice of meetings where the respondent may be present. More specifically, the respondent will be given the following written notices:

- Notice that a complaint was dismissed or that an investigation will proceed.
- Notice of a charge filed and any information that will be used in the hearing process.
- Notice of the date and time of any hearing and a list of hearing panel members.
- Notice of the hearing panel's decision of "responsible" or "not responsible." This notice will include an explanation of the University's appeals process.
- Notice of the sanctions imposed. This notice will include an explanation of the University's appeals process.
- Notice of whether an appeal has been filed.
- Notice of whether the decision, or sanctions, have been modified.
- Notice when the decision and sanctions become final.

Conflicts of Interest

The University requires any individual participating in the investigation, hearing process, sanctioning or appeal process to disclose to the University any potential or actual conflict of interest. If a respondent believes that any individual involved in the process has a conflict of interest, within three (3) business days of receiving notice of his/her participation the respondent may make a written request to the Rules Administrator that the individual not participate. Any request should include a description of the conflict. If the Rules Administrator determines that a conflict of interest exists, he/she will take steps to address the conflict in order to ensure an impartial process. A respondent who believes that the Rules Administrator has a conflict of interest must submit the written request to the *Office of the Executive Vice President for University Life*.

§447. Prehearing Procedures/Investigation

Filing Complaint(s)

Any member of the University who believes a violation of the Rules has been committed may file a written complaint, either on paper or electronically via U.S. mail, email, or online portal, with the Rules Administrator. The complaint shall state with particularity the person(s) involved, the nature of the offense, and the circumstances under which the offense may have been committed.

Complaint(s) Dismissed

If the Rules Administrator dismisses a complaint, he/she will notify the complainant and respondent in writing.

Investigation of Complaints

If an investigation proceeds, the Rules Administrator will notify the respondent in writing of the allegation(s). The Rules Administrator will conduct interviews and will gather pertinent information and documentation. The Rules Administrator will inform the Dean of the relevant school(s) that an investigation is commencing and will seek to coordinate any disciplinary proceedings. The University's process for responding to, investigating, and adjudicating allegations of mis-

conduct will continue during any law enforcement proceeding. The University may need to temporarily delay an investigation while law enforcement is gathering evidence, but it will resume the investigation after it learns that law enforcement has completed its evidence-gathering and will generally not wait for the conclusion of any related civil or criminal proceeding.

The Rules Administrator will follow the protocols set forth below:

- **Preserving Evidence.** The Rules Administrator will direct the respondent, witnesses, and other interested individuals to preserve any relevant evidence.
- **Character Witnesses.** The Rules Administrator will not interview witnesses whose sole purpose is to provide character information.
- **Prior Conduct Violations.** The Rules Administrator will not consider the respondent's prior conduct violations, unless the respondent was previously found to be responsible, or the previous incident was substantially similar to the present allegation(s) and/or the information indicates a pattern of behavior by the respondent.

Informal Resolution

The Rules Administrator may seek to resolve certain cases through an informal process with the respondent. This type of informal resolution can take place during the investigation or after its conclusion. If these efforts are unsuccessful, the disciplinary process will continue.

Charge(s) Filed

If a charge is filed, the Rules Administrator will prepare a report detailing the relevant content from the interviews and the documentation gathered. The report will include the Rules Administrator's assessment and recommended findings of responsibility.

The respondent will have the opportunity to review a copy of the investigative report and any other information that will be used during the hearing process. The names and other identifying information of other individuals may be redacted from such materials.

Administrative Resolution

After the respondent has had an opportunity to review the investigative report and related material, the Rules Administrator will ask the respondent to respond to the alleged violation in one of the following ways: (1) Responsible; (2) Not Responsible; or (3) No Response. If the respondent accepts responsibility, the matter will proceed to the sanctioning stage, followed by any appeals. If the respondent declines responsibility, or chooses not to respond, the matter will proceed to the hearing stage. If the respondent selects not to respond, this shall not be considered to be an admission of responsibility.

§448. Hearing Process

Hearing Panel

If administrative resolution is not available, the Rules Administrator will submit the charge(s) to the University Judicial Board, which will determine whether the respondent is responsible or not responsible for a violation of the Rules. If the respondent is determined to be responsible, the University Judicial Board will provide the sanction based on their determination.

Written Submissions

Both the Rules Administrator and the respondent will have the opportunity to submit to the hearing panel written responses to the investigation report and other relevant information. The Rules Administrator and the respondent will have the opportunity to review any written, recorded, photographic, or digital submissions by the other. The hearing panel may set reasonable parameters for these written submissions. The hearing panel will review the investigation report and written submissions. The panel may determine that a hearing is not necessary when all panel members agree that the information in the investigation report and the written submissions (if any) is sufficient to make a determination (for example, where the respondent does not dispute relevant facts). If the panel decides that a hearing is not necessary, the panel will proceed directly to make a determination, including an explanation of why a hearing is not necessary.

Either the Rules Administrator or the respondent may submit to the hearing panel a request to consolidate, or sever, the hearings of this and other respondents.

Hearing Procedures

The University will, whenever possible, give the respondent at least five (5) business days' advance notice of the hearing. The hearing is a closed proceeding, meaning that the only individuals who may be present in the hearing room(s) during the proceeding are: the panel members, the Rules Administrator, the respondent, their respective advisors, witnesses (when called), and necessary University personnel. The Office of the Executive Vice President for University Life will work with other University personnel so that any individual whose presence is required may participate in the hearing.

A respondent may request in writing that a hearing be open to the public, and the request shall be granted unless the University Judicial Board decides to keep the hearing closed for cause. If the Board decides to keep the hearing closed, it must provide written notice to the respondent. In determining whether a hearing may be open to the public, they may consider: (1) the risk to public safety, including to witnesses who may be called, and (2) the deterrent or permissive effect on the campus community, including on particular individuals and organizations.

If a hearing is declared open, a dissenting member of the hearing panel can declare a conflict of interest and withdraw from consideration of the case.

In general, hearings will proceed as follows:

- Rules Administrator statement
- Respondent statement
- Questions to the Rules Administrator by the hearing panel
- Questions to the respondent by the hearing panel
- Witness testimony and questioning by the hearing panel
- Closing statement by Rules Administrator
- Closing statement by respondent

The panel may set reasonable time limits for any part of the hearing. The Rules Administrator and the respondent will have the opportunity to present witnesses and other information consistent with the Rules. The panel may determine the relevance of, place restrictions on, or exclude any witnesses or information. When the respondent is not able to be present for the hearing panel, arrangements will be made for participation via alternate means.

In cases where the respondent opts not to participate in the hearing, the panel may still hear from the Rules

Administrator, but it may not draw an adverse inference from a respondent's refusal to participate.

Additional hearing rules include:

- **Questioning.** Only the panel may ask questions of the Rules Administrator, the respondent, and any witnesses. Both the Rules Administrator and the respondent will have the opportunity to suggest questions of the other and of witnesses by submitting suggested questions to the panel in writing. The panel may revise or not ask any or all submitted questions.
- **Prior Conduct Violations.** The hearing panel will not consider the respondent's prior conduct violations, unless the information is provided because: the respondent was previously found to be responsible, or the previous incident was substantially similar to the present allegation(s) and/or the information indicates a pattern of behavior by the respondent.
- **Hearing Recording.** If the hearing is closed, the University will keep an audio recording of the hearing for the use of the panel, for sanctioning, and for purposes of appeal. The Office of the President, the panelists, the University Judicial Board, the Rules Administrator, and the respondent may request a transcript of the recording. If the hearing is open, the verbatim record of the hearing must be a public record.
- **Cell Phones and Recording Devices.** Cell phones and recording devices may not be used in the hearing room(s) unless approved by the panel in writing in advance.

Panel Determinations/Standard of Proof

The panel will use “preponderance of the evidence” as the standard of proof to determine whether a violation of the Rules occurred. Preponderance of the evidence means that a panel must be convinced based on the information it considers that the respondent was more likely than not to have engaged in the conduct at issue in order to find the respondent responsible for violating the Rules.

The panel will find a respondent responsible, or not responsible, based on a majority vote. The panel will generally render a decision within five (5) business days after the conclusion of a hearing. The panel’s decision will include an explanation of the basis for the decision.

If the panel finds the respondent responsible, the matter will proceed to the sanctioning stage. The panel will transmit its determination to the Rules Administrator and the respondent. The transmission must include (1) the finding of the respondent as responsible or not responsible; and (2) the reasoning behind the finding.

§449. Sanctions and Other Remedies

How Sanctions Are Determined

Available sanctions will be consistent across all University departments and schools. Similar offenses may result in different sanctions where there are distinguishing facts and circumstances in the opinion of the University Judicial Board.

The University Judicial Board will impose sanctions that are:

- Fair and appropriate given the facts of the particular case.
- Consistent with the University’s handling of similar cases.
- Adequate to protect the safety of the campus community.

In cases where the respondent accepts responsibility through an informal resolution, the sanctioning will be designated to the chair of the University Judicial Board (or his/her designee).

In determining what sanctions will protect the safety of the University community, the University Judicial Board will be advised by Univer-

sity Public Safety or other experts and will consider: (1) the nature of the violation (simple or serious); (2) the risk that the respondent may engage in additional substantially similar misconduct; (3) the deterrent or permissive effect of a particular sanction on the campus community, including on particular individuals and organizations aware of the offense (keeping in mind that a sanction must always be fair and appropriate for the particular case); and (4) the precedent established by the University Judicial Board in previous cases.

To ensure that sanctions imposed by the University Judicial Board are consistent with the University's handling of similar cases, the Rules Administrator will be responsible for providing members of the University Judicial Board with records of any similar past cases, with the names and any other identifying information of past respondents removed.

A respondent who is found responsible for a simple violation of these Rules is subject to the full range of sanctions with the exception of: Dismissal or restriction from University employment; Suspension; Expulsion; and Revocation of degree. For repeated simple violations of these Rules, the respondent is subject to the full range of sanctions with the exception of: Expulsion, and Revocation of degree. A respondent who is found responsible for a serious violation of these Rules is subject to the full range of sanctions.

No notation, letter, or other record may be placed into the file of any community member in connection with activities covered by these Rules, either temporarily or permanently, unless the respondent has been found responsible for a Rules of University Conduct violation and has been sanctioned under these Rules.

The University Judicial Board will render a sanctioning decision within five (5) business days following the receipt of the panel's determination (or notification of a case where the respondent accepts responsibility). The sanctioning decision will be communicated in writing to the Rules Administrator and the respondent. The transmission must include (1) the finding of sanctions; and (2) the reasoning behind the imposition of sanctions.

List of Sanctions

The University may impose any one or more of the following sanctions on a respondent determined to have violated the Rules:

- Private reprimand/warning.
- Public reprimand/warning.
- Disciplinary probation.
- Restricting access to University facilities.
- Community service.
- Issuing a “no contact” order to the respondent or requiring that such an order remain in place (restricted to cases of bodily harm and threats of bodily harm).
- Dismissal or restriction from University employment.
- Removal from University housing.
- Suspension (limited time or indefinite).
- Expulsion.
- Revocation of degree.

In addition to any other sanction (except where the sanction is expulsion or revocation of a degree), the University may require any respondent determined to be responsible for a violation of the Rules to receive appropriate education and/or training related to the violation at issue. The University may also recommend counseling or other support services for the respondent.

Additional Responses

The University may also determine that additional measures are appropriate to respond to the effects of the incident on the University community. Additional responses for the benefit of the University community may include:

- Increased monitoring, supervision, or security at locations or activities where the misconduct occurred.
- Additional training and educational materials for faculty, students, and staff.
- Revision of these Rules.

§450. Appeals

Appeals Board

Either the Rules Administrator or the respondent may appeal the decision of the University Judicial Board by submitting an appeal, in writing either by Registered U.S. mail or personal delivery, within five (5) business days after receiving the sanctioning notice. Appeals are decided by the Appeals Board. The three grounds for appeal are:

1. A procedural error affecting the determination or sanction;
2. New information that was not available at the time of the investigation or hearing and that may change the determination or sanction; and
3. Excessiveness of the sanction.

Disagreement with the finding or sanctions is not, by itself, grounds for appeals.

If either the Rules Administrator or the respondent submits an appeal, the non-appealing party will be notified of the appeal and the grounds of the appeal. The non-appealing party may submit a written response within five (5) business days after notice of an appeal.

If the Appeals Board concludes that a change is warranted, based on a majority vote, the Board may revise the determination, reconvene the panel for it to reconsider the determination, or return the matter for additional investigation. If both the Rules Administrator and the respondent appeal, the appeals will be considered together.

The Rules Administrator and the respondent will be notified in writing of the final decision, which will be rendered within ten (10) business days of the receipt of the written appeal.

The respondent, but not the Rules Administrator, may also appeal the sanction set by the University Judicial Board. The Appeals Board may affirm or reduce the sanction, but may not increase it.

Presidential Action

A final appeal may be made to the President for clemency or review, which the President may hear in his/her discretion.

§451. Records Disclosure

Disciplinary proceedings conducted by the University are subject to the Family Educational Records and Privacy Act (FERPA), a federal law governing the privacy of student information. FERPA generally limits disclosure of student information outside the University without the student's consent, but it does provide for release of student disciplinary information without a student's consent in certain circumstances.

A respondent who successfully requests an open hearing waives his or her rights under FERPA.

Any information gathered in the course of an investigation may be subpoenaed by law enforcement authorities as part of a parallel investigation into the same conduct, or required to be produced through other compulsory legal process.

§452. Committee on Rules of University Conduct

- a. The University Senate Committee on Rules of University Conduct shall prepare any material that will facilitate the functioning of the procedures.
- b. Persons otherwise connected with the disciplinary procedures shall be excluded from the University Senate Committee on Rules of University Conduct.
- c. All changes in these Rules shall be passed by the University Senate for approval and acceptance by the Trustees in accordance with the Statutes of the University.
- d. The University Senate Committee on Rules of University Conduct shall, at least every four years, facilitate a public discussion, engaging faculty, students, and staff, about whether revision of the Rules is merited.

XLV

AMENDMENTS

Method of amendment The Statutes shall not be amended, altered, or repealed, unless notice in writing of such proposed amendment, alteration, or repeal shall have been given the Trustees at least thirty days in advance, and provided that with respect to any proposed amendment, alteration, or repeal related to the University's academic programs or to other academic matters, notice in writing shall be given at a previous meeting of the Trustees.
